

INFANT ANTONY SHERON S

Senior Software Engineer

Chennai, India | 9344408399 | sheronanton@gmail.com
sheronanton.github.io | github.com/sheronanton | linkedin.com/in/infantantonysherons

PROFESSIONAL SUMMARY

Senior Software Engineer focused on full-stack development with **Java, Spring Boot, and React**. Experience generating **30+ daily reports** across **millions of records**, migrating an Oracle database to PostgreSQL, and mentoring **3 junior team members**. Current work includes application features, database migration, SQL optimization, and code refactoring at BCT Consulting Private Limited.

TECHNICAL SKILLS

Core stack: Java · Spring Boot · React · PostgreSQL
Web & data: JavaScript · HTML · CSS · SQL · Oracle · Stored procedures · Report generation
Engineering: Database migration · Schema conversion · Performance tuning · System validation · Requirements analysis · Code refactoring · Code reviews · Team mentorship

PROFESSIONAL EXPERIENCE

Senior Software Engineer

BCT Consulting Private Limited | Jun 2026 – Present

- Develop full-stack application features with **Java, Spring Boot, and React**, translating requirements into backend and frontend enhancements.
- Support database migration through schema updates, data transfer, and validation of migrated data for functional correctness and consistency.
- Write and optimize SQL queries for application data access and performance.
- Investigate application defects, fix bugs, and refactor code to improve maintainability.

Software Developer

MACCS Innovations | Jan 2022 – Jun 2026

- Developed and optimized SQL queries and stored procedures to generate **30+ daily reports** across **millions of records**.
- Migrated an Oracle database to PostgreSQL, covering schema conversion, data migration, performance tuning, and system validation with minimal downtime.
- Mentored **3 junior team members** through code reviews, technical guidance, and onboarding.
- Supported requirements analysis, bug fixes, refactoring, and feature enhancements to improve application stability and performance.

Software Maintenance

Shalom Happy Home Constructions | May 2018 – Dec 2020

- Maintained and updated the company website and software to support application requirements.

EDUCATION

Bachelor of Engineering in Electronics and Telecommunication

Sathyabama University | 2013–2017
